

Dear Westerville North family,

We would like to introduce you to **Naviance Student**, an online college and career portal that your student will use to discover and align their strengths and interests to postsecondary goals. Students in grades 6 through 12 will utilize Naviance Student throughout the school year to discover and log their career interests, set goals, and search for postsecondary programs. Seniors will also use Naviance Student to apply to colleges and universities.

We are excited to engage your family in this important postsecondary planning process! As a parent/guardian, you are able to log in to Naviance Student and view your student's career interests and goals, as well as stay updated on important information and news from your school counseling office. **You can easily access Naviance Student through your PowerSchool Portal and directions are below.** If you have any trouble accessing your PowerSchool Portal, please contact your building for login information and assistance.

Directions to access Naviance Student through the PowerSchool Portal

- Login to PowerSchool (visit <http://www.wcsoh.org> and click on the PowerSchool link on the top right).
- Next, click on the Applications button found in the top right corner of the screen. The button looks like this icon: 
- Another screen will pop up and you will click on the **Login to Family Connection** link.

- You will confirm your student's name and be logged in to Naviance Student on the next screen.
- Once you are logged in to Naviance Student, take some time to explore the online portal by clicking the links on the top right of the page and ask your student to help you navigate the site!
